

DX Tech Solutions and Summit Learning Institute® LLC

Presents

An AI-Enabled Business Scaling Webinar Series

For owners of professional service firms including:
Insurance agencies, accounting, bookkeeping, and
financial services with \$200K-\$5M annual
revenue.

Who Are We!

DX Tech Solutions is a collaboration of business-technology consultants and educators convening in a strategic partnership structured to deliver guidance and management to support professional service company owners, executives and entrepreneurs motivated to learn how to successfully adopt, implement and use digital transformation technologies successfully to automate, grow, operate, sustain and add value to their businesses.

ICP Focus: Professional Services

AI-Enabled Business Scaling

INDUSTRY EXPERTISE + TECHNOLOGY LEADERSHIP

Unlike generic AI consultants DX Tech Solutions has expertise across the tech stack and understands our client's unique industry challenges including operational and compliance requirements. Our recommendations are backed by Gartner's research and insights along with professional hands-on business technology implementation expertise from our team.

We are focused on each client's unique business objectives.

Who Are We!

Welcome to Summit Learning Institute®

At Summit Learning Institute®, LLC we offer virtual learning pathways and AI-driven solutions aimed at fostering continuous growth, productivity, and performance. Founded in 2021 by Dr. NNeka Allen-Harrison and Dr. Chris Harrison, we are a mission-driven organization dedicated to empowering individuals and organizations through education, innovation, and strategic consulting.

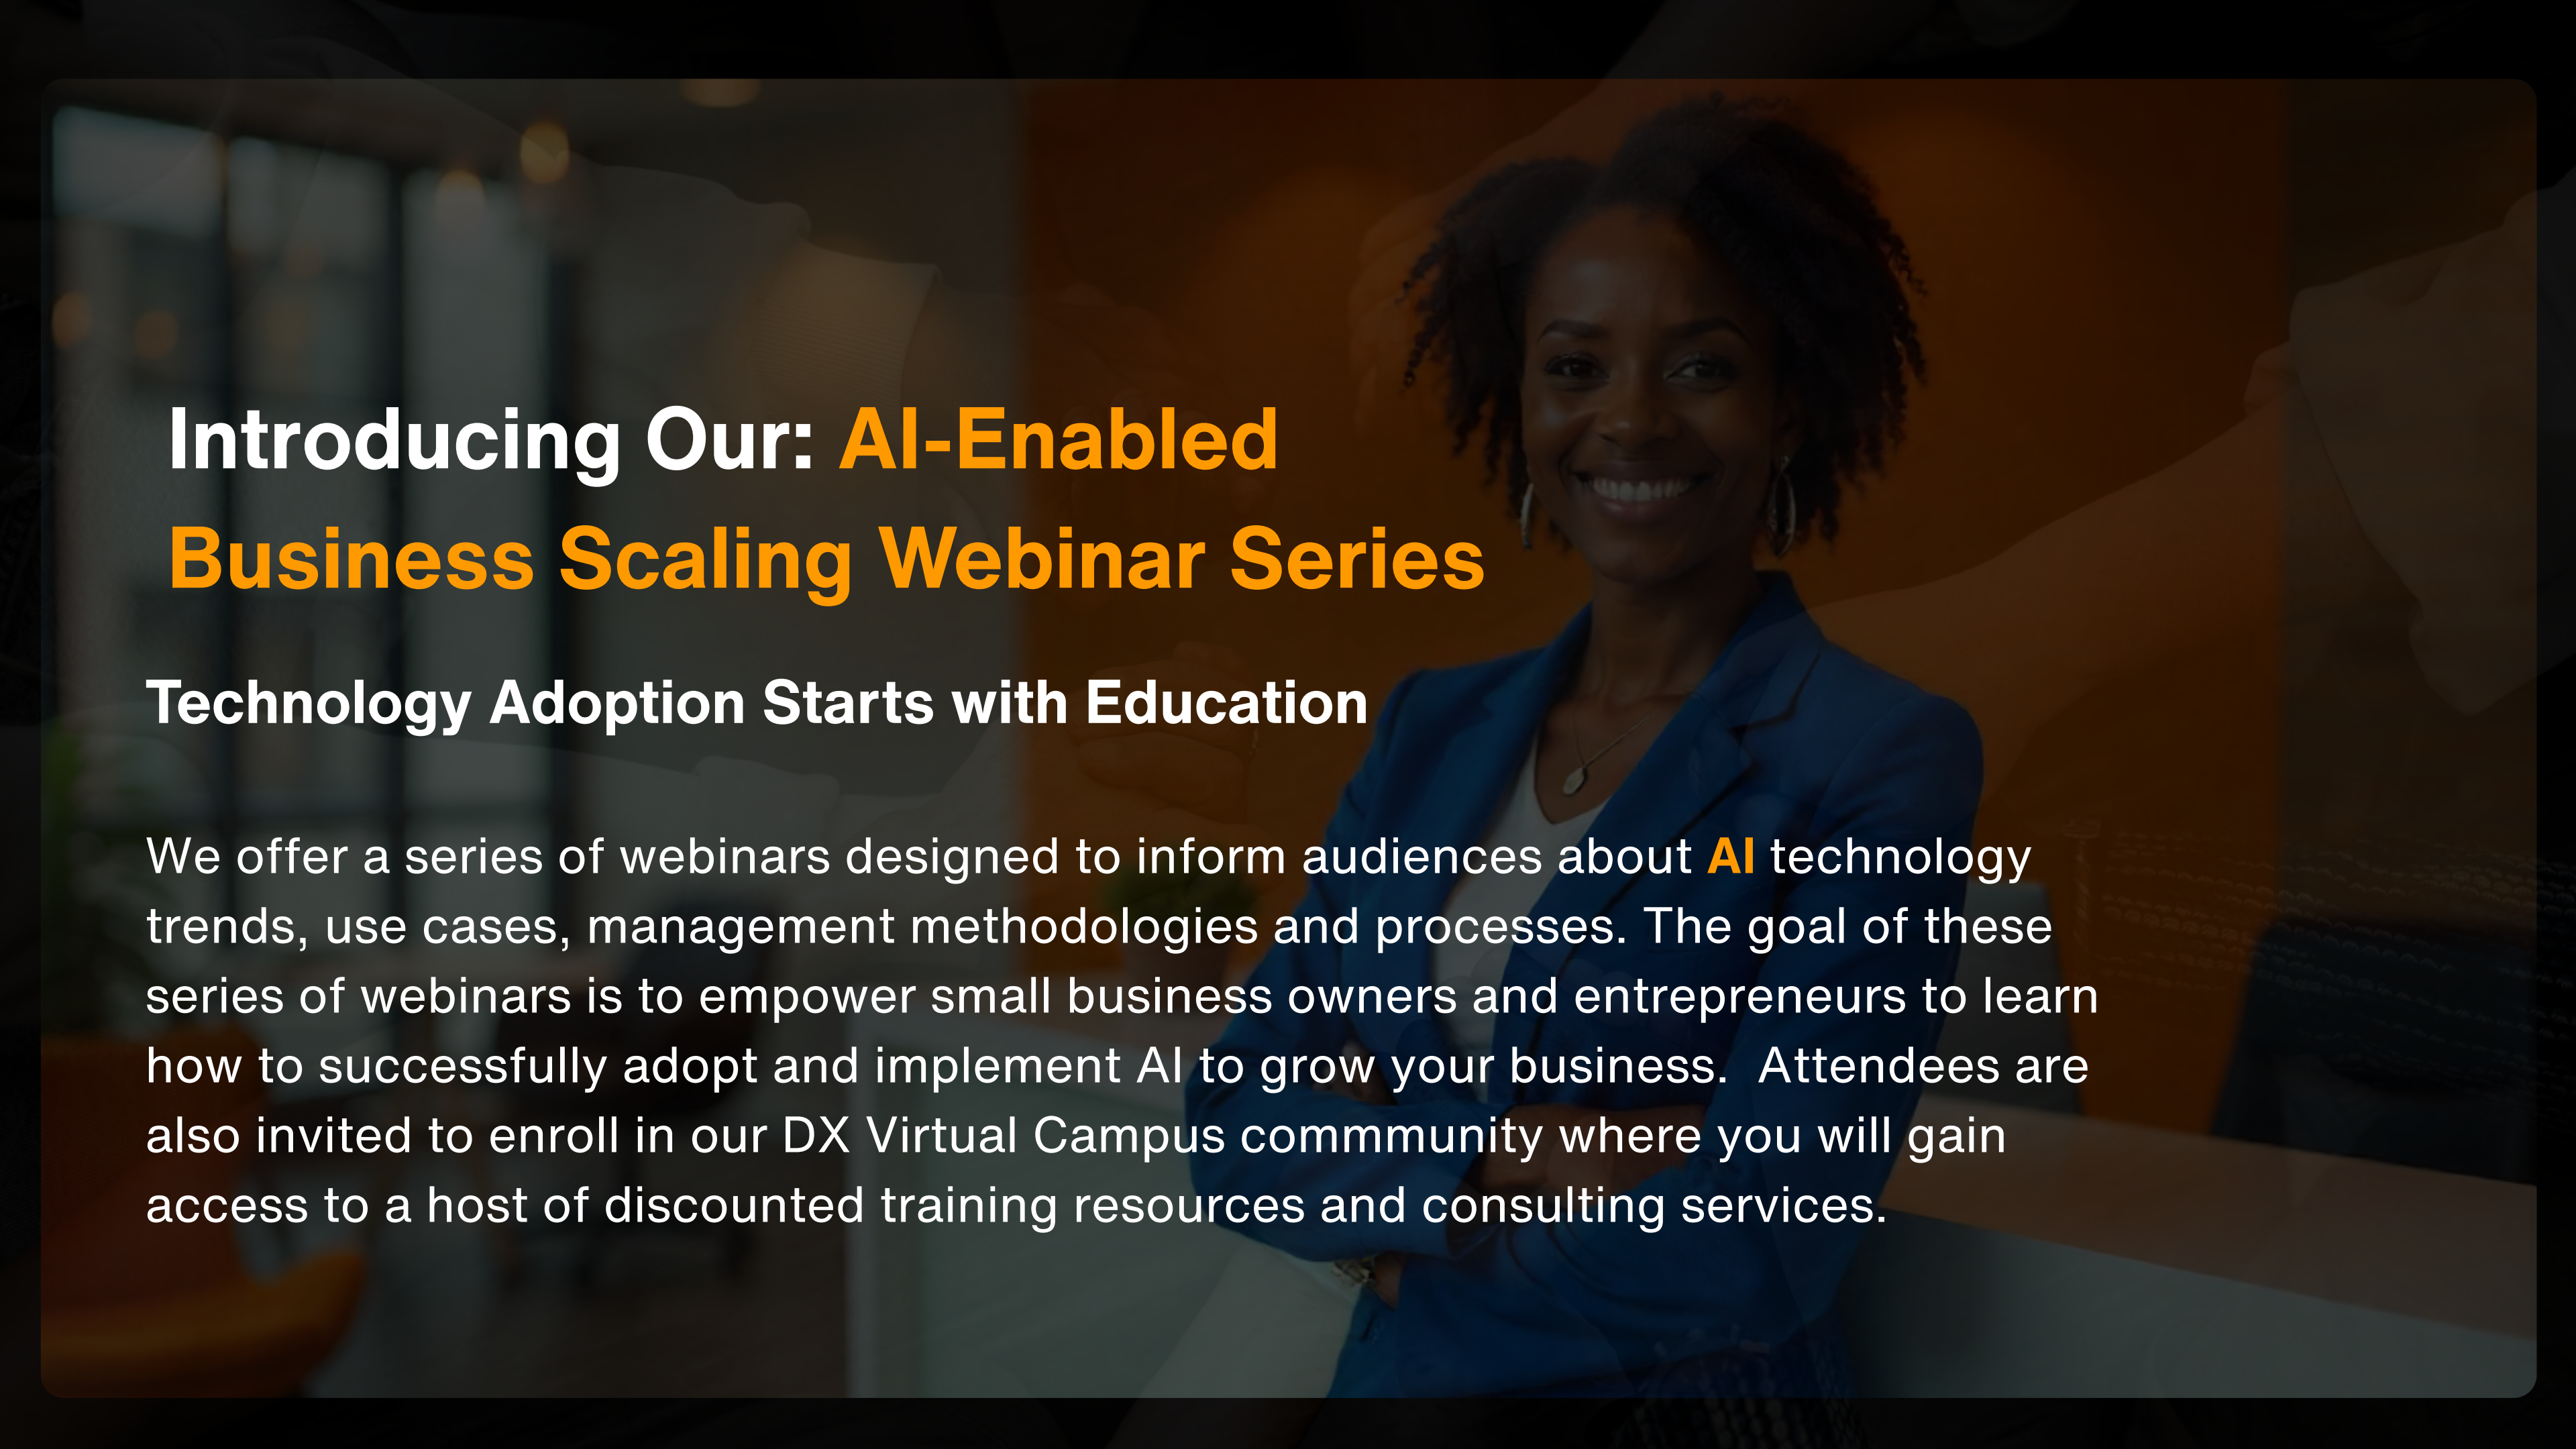

A man with a beard, wearing a grey suit, stands in profile facing right, holding a small white card. He is addressing an audience of diverse people seated in a room with large bookshelves filled with books. The lighting is warm and focused on the speaker. The background shows a large window with a view of the outdoors.

Welcome to: AI-Enabled Business Scaling: "The Smart Path from Solopreneur to Business Owner"

This webinar series is designed to help professional service practitioners learn how to transform from a job you own into a business that works without you. We will share how our proven consulting methodology combines **AI** automation techniques with hands-on implementation strategies to help entities like insurance agencies, accounting, bookkeeping and financial service firms scale efficiently, profitably, and sustainably.

Encouraging Leaders to Learn **Before they Invest**

A smiling Black woman with curly hair, wearing a blue blazer, stands in a modern office setting. The background is slightly blurred, showing office furniture and a warm, orange-toned light. The text is overlaid on the left side of the image.

Introducing Our: **AI-Enabled Business Scaling Webinar Series**

Technology Adoption Starts with Education

We offer a series of webinars designed to inform audiences about **AI** technology trends, use cases, management methodologies and processes. The goal of these series of webinars is to empower small business owners and entrepreneurs to learn how to successfully adopt and implement AI to grow your business. Attendees are also invited to enroll in our DX Virtual Campus community where you will gain access to a host of discounted training resources and consulting services.

The AI-Enabled Business Scaling Webinar Mission

Address Key Business Pain Points:

- Business Development/Marketing
- Insurance: Policy management, renewals, claims processing, carrier compliance.
- Accounting: Tax workflows, client onboarding, financial reporting, seasonal capacity.
- Financial Services: Managing immense amounts of data.
- Workforce skillsets needed to ensure real results match AI strategy recommendations.
- Revenue Growth vs. Profit Growth

AI-Enabled Business Scaling Webinar Series

"The Smart Path from Solopreneur to Business Owner"

Dr. Christopher Harrison, Ed.D, the co-founder of Summit Learning Institute® LLC and Maurice L. Butler, MBA, the Founder and CEO of DX Tech Solutions will host and moderate each webinar session.

Dr. Chris Harrison, Ed.D
